**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-12 drawn to an advertising information processing system for enabling the display and printing of advertisements and varying the pricing of advertised items, classified in class 705, subclass 14.
- II. Claims 13-16, drawn to an advertising information processing system for accepting proposed upper pricing limits, determining a match of the items with the pricing limits, generating the item accordingly, and storing, displaying, and controlling the display of the item, classified in class 705, subclass 26.

2. Inventions of group I and groups II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of group I has separate utility such as displaying and printing customized advertising information for a customer. This separate use patentably distinguishes the invention of group I from group II, since the feature of displaying and printing customized advertising information for a customer is not a limitation of the other independently claimed invention. Therefore the invention of group I is a separately usable subcombination. See MPEP § 806.05(d).

3. Inventions of group II and group I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant

case, invention of group II has separate utility such as accepting upper pricing limits, matching the items to this proposed pricing limit, and displaying the results. This separate use patentably distinguishes the invention of group II from group I, since the feature of providing upper pricing limits and matching the items to this proposed pricing limit is not a limitation of the other independently claimed invention. Therefore the invention of group II is a separately usable subcombination. See MPEP § 806.05(d).

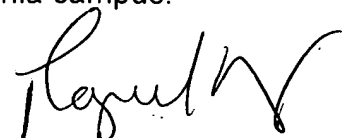

4. Since the restriction is complex and examiner knows from past experience that an election will not be made by telephone, this restriction is proper under MPEP 812.01.

**Conclusion**

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Namrata (Pinky) Boveja whose telephone number is 571-272-8105. The examiner can normally be reached on Mon-Fri, 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eric Stamber can be reached on 571-272-6724. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8105. On July 15, 2005, the Central FAX Number will change to **571-272-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.
